

IDENTIFICATION AND DISPOSAL OF PACKAGING MATERIALS

European Commission Decision 97/129/EC of January 28, 1997 establishes an identification system for packaging materials pursuant to European Parliament and Council Directive 94/62/EC on packaging and packaging waste (OJ L 50/28, 20.02.1997).

The identification system is based on specific numbering and related abbreviations to describe the nature of the packaging material(s) used, and specifies which materials are subject to this identification system to facilitate their disposal.

Below are the materials used by MP FILTRI SpA.
